What Baptists Believe and Why They lieve It: or. The Position, the Princiss, and the Belief of the Baptists." was arily and forcibly presented by Rev. S. H. compson. While there was nothing in the dress calculated to wound or offend, it is strictly denominational and was an le exposition and defence of the truth Baptists hold and teach it. It made a found impression, and the meeting animously requested its publication in a Religious Herald.

ORGANIZED.

ORGANIZED.

After religious services, conducted by the president, during which brief remarks were made by the pastor of the church and Rev. W. Willis, the body was formally organized by the election of Rev. S. H. Thompson as president and Mr. M. F. Willard as secretary.

Mr. John W. Hodges, of Catawba church, rend a short but excellent paper on the "Beneficial Effects of a Weekly Prayer-Mesting on the Church," and the subject was further discussed by Captain Haymes, L. J. Anderson, Rev. W. W. Willis, and others.

others.

Mr. M. F. Willard read a carefully-prepared paper on the needs of the association in which he showed that the great
and pressing needs of the field were more
preachers and more preaching, and the
establishment of high schools and acade-

establishment of high schools and academies.

Church Discipline was discussed by William H. Abbott and Rev. H. G. Crews. Mr. Abbott's speech, though short, was carnest and tender, and while insisting on the importance of a firm and wholesome discipline, urged that it be exercised in a gentle and loving spirit.:

A large crowd filled the church again Saturday night to hear Rev. H. G. Crews's discussion of the Holy Spiritand His work. The essay read by him was a clear, comprehensive, and able presentation of his subject, which was further discussed in brief addresses by Rev. S. H. Thompson and Rev. W. W. Willis. THE BIG DAY.

But Sunday was "the great day of the feast." The weather was simply perfect, and by the trains, as well as by private conveyance, the people turned out in great numbers to hear Dr. Tupper, the corresponding secretary of the Foreign Mission Board of the Southern Baptist Convention, on the Centennial of Missions. The church was crowded, extra seats having been brought in from the infant class-room; and for nearly an hour and a half this old man eloquent held the undivided attention of this large audience. It is impossible in a brief report to do justice to this magnificent address. Many who had heard him before the Southern Baptist Convention and in the general associational meetings thought that this was the finest effort they had heard from him. It made a most profound impression. was the finest effort they had heard from him. It made a most profound impression, wonderfully arousing and stirring the people to increased and renewed prayer and consecration to the great cause of missions, and cannot fail of greatly stimulating and developing the interest of the association in this centennial movement, the object for which, as he explained it, is to celebrate this centennial year of the revival of missions by sending one hundred missionaries into the foreign field and raising a centennial fund of \$250,000.

In the afternoon Rev. S. H. Thompson discussed the question: "Will the Heathen be Saved Without the Gospel?" His address was earnest, effective, and convincing

closed Sunday night with a sermon by Rev. W. W. Willis, of Sacramento, Cal., who selected for his text Christ's words on the cross, "It is finished." Mr. Willis proched a sermon of great pathos and tenderness. He has recently accepted a call to several Baptist churches in Halifar. NOTES.

The next meeting will be held with Asron's-Creek church the fifth Saturday and Sunday in May.

Messra. Guthrie, East, and W. N. Dickens, as Committee on Hospitality, did their part admirably, being careful that all delegates and visitors, men, women, and children were well taken care of. Their only trouble was that the supply of delegates, etc., was not equal to the demand.

Steps were taken to revive the Correspondent, the publication of which has been for some months suspended. Revs. S. H. Thompson and W. J. Shipman are editors and managers and hopeto get out the February number in a few days.

The absence of Rev. William Slate, who was detained by severe illness, was greatly regretted.

BERKING PROTECTION.

Quite a number of our leading merchants have become members of Wilson & Co.'s Collecting and Protective Agency. of Baltimore, the object being to protect themselves from their customers who fail to pay their bills.

A note for \$835 with the firm-name of James A. Armstrong & Co., of this place, signed to it, on the National Valley Bank of Staunton for collection, given to William Simpkin, of Richmond, turns out to be a forgery. The endorser, Mr. W. P. Dessusure, of Richmond, will be the loser.

THE FEDERAL HOUSE.

Speaker Crisp Very Hourse-Extravagance Charged Against the Census Bureau.

Charged Against the Census Bureau.

(By telegraph to the Dispatch.)

Washington, February 5.—Mr. Fithian.
of Illinois, sent to the Speaker for reference a bill placing farm implements upon the free list. He wished to have the bill printed in the Record, but the Speaker declined to recognize him for the purpose of making that request at the present time.

Speaker Crisp is very hourse, and his voice was hardly audible. The calling of committees for reports, which is usually made by the Speaker in person, was delegated to one of the reading clerks, the Speaker being desirous of saving his throat as much as possible. Finally he left the chair and yielded the gavel to Mr. McMillin, of Tennessee.

Several reports were made from committees and placed upon the calendar. The call of committees having been completed, Mr. Fithian, of Illinois, made his request that the bill introduced by him be printed in the Record and the request was acceded to.

The House then went into committee of the whole (Mr. Richardson, of Tennessee, in the chair) on the census deficiency bill EXTRAYAGANCE CHARGED.

Mr. Sayers, of Texas (in charge of the bill made an explanation as to its provisions, and brought a charge of extravagance against the administration of the Census Bureau. He said that hundreds of men and women who never cought to have been employed had been employed in that office at the instance of members of Cengress. Bad the Superintendent of the Census been left to operate his Bureau without pressure from the outside to put in office a large number of incompetent persons the expenditures would have been very much less.

Mr. Henderson, of lows: Do you refer to the number or the quality?

against certain limestone industries of Indians and in favor of others. In the taking of the census great inaccuracy, if not dishonesty, has been committed, as far as the limestone workings were concerned.

Mr. Stone, of Kentucky, paid a high tribute to the ability and efficiency of the Superintendent of the Census.

Mr. Sayers offered an amendment appropriating \$115,514 for the subsistence of the Sioux Indians and calling upon the Secretary of the Interior to report to the House the names of all employees under the direction and supervision of the Indian Bureau.

The latter clause of this amendment was the first general legislation to be incorporated upon an appropriation till, but no objection being made, the amendment was adopted. The committee having arisen the bill was passed.

The private calendar was then taken up for consideration, but no progress was made, and the House adjourned until 12:45 o'clock to-morrow, when enloying will be delivered upon the late Representative Lee, of Yirginia.

The Senate was not in session to-day.

Washingron, February 5.—A bill that will interest people throughout the distilling section of the South was reported favorably to the House to-day by Mr. Bynum, of Indiana, from the Judiciary Committee. It is substantially the bill introduced by Representative Henderson, of North Carolina, to amend the internal-revenue laws. The first section abolishes what are known as minimum punishments and is intended to discourage frivolous prosecutions. By this section no warrant in internal revenue cases can be issued upon an affidayit making charges "upon information and belief" unless made by certain officials, and it also makes more stringent the law relating to fees of court officers with the view of removing some of the temptation to make cases for the fees to be derived the returnable to the nearest Federal commissioner or other official, and section 4 gives to the Attorney-General a veto upon the appointment of United States commissioners and the power of summary removal of commissioners. The last section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of the Section empowers the Commissioner of Internal Revenue, with the approval of [By telegraph to the Dispatch.]

ing in Consequence.

(By telegraph to the Dispatch.)

Naw Yose, February 5.—Two hundred electric-light wiremen are on a strike, and they declare that before they give in every building and office between the Battery and Fifty-ninth street, to which the Edison Illuminating Company's wires run, will be darkened. The trouble has been browing ever since the Edison Company set up a wiring department and began to take contracts for fitting out buildings for incandescent-light wires. At first union men were employed, but as the basiness grew some non-union men began to be employed, whereupon the union men who belonged to the Electric Wirenen's Union declared they would not work beside non-union men. The Edison Company said it would employ whomsoever it pleased. The result is a strike on the part of the union men, and one that threatens the darkening of a good part of the town before it is settled.
